# Welcome

Welcome to AZTECHIZAT's catalogue, full of our most up to date offers and a wide selection of competitively priced products perfect for your office.

Furniture plays a key role in any office. It can help to provide your workforce with a motivating and engaging environment to succeed; it also reflects and projects your brand image. At AZTECHIZAT, we provide quality, fit for purpose furniture to suit modern workplaces.

If you are looking to expand, relocate or simply change your office furniture, AZTECHIZAT can offer you a complete solution with an extensive range of desks, storage, reception, boardroom and meeting room options. Whatever your requirements, we are here to assist you.

## OUR INTERIORS SERVICES

### FIT-OUT & REFURBISHMENT

We provide a complete fit-out service from project planning and design through to installation and compliance. Initially your dedicated project manager will work with you to establish and understand your requirements, priorities and budget. Once agreed, we will organise everything from the construction of internal walls, partitions and suspended ceilings, cabling, computer networks through to heating and ventilation.

### DESIGN & PLANNING

We can maximise the potential of your office, providing multiple layout and product options within your budget. We will then arrange showroom visits to discuss and view the proposed furniture. The final solution will be tailored to meet your exact requirements and provide the best value for your needs.

### PRODUCT DEMONSTRATIONS

We can provide recommendations to improve your employees working environment, from office layouts to the equipment being used. Once your new furniture is installed we can even show your employees how to use it. With seating designed to support the back and body it's important to check that the chair is properly set up for its user, so we can assist with product demonstrations.

### PROJECT MANAGEMENT

From the initial stages of design through to installation, we offer the complete management solution from a specialist based locally to you.

### AFTER SALES

With our dedicated Customer Service Team, we want to ensure that you are well looked after, even after installation. Our experienced Team provides an after sales service to assist with all enquiries.

### MOVE MANAGEMENT

The prospect of moving can be a daunting one, but we can ease the process by organising your move from start to finish - either independently or by integrating with your existing facilities team. We cover everything from large scale moves to internal restructuring, and through careful planning, preparation and flexibility our Team of trained experts will minimise disruption to your company.

### 2D & 3D CAD DRAWINGS

We use the latest CAD techniques to provide our clients with accurate, detailed floor plans and layouts - giving you the opportunity of arranging the office in the most cost efficient way.

### FURNITURE LEASE PURCHASE

We have options to help you spread the costs of your working environment, providing funding for a turnkey solution. This approach enables you to make tax savings, as the repayments and interest are 100% tax deductible - unlike traditional capital expenditure. With costs fixed for the term you can benefit from low, manageable payments and competitive rates.

### FURNITURE RECYCLE

InteriorsTeam can assist in the ethical disposal of your unwanted furniture by either removal to a dedicated recycling centre or donation to charities and other good causes for future use.

## WHEN ORDERING

- Only available on Express Delivery in Camira Manhattan fabric.
- All other fabrics on standard delivery lead times.
- When ordering, please specify your chosen:
  - Arm/Back Colour
  - Fabric Colour
  - Mesh Colour
